THE POST-STANDARD

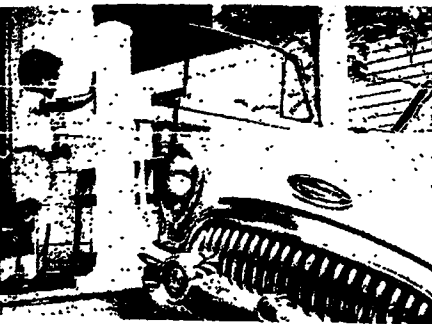

ONE HUNDRED AND TWENTY-SEVENTH YEAR

Volume 52
Number 25

SYRACUSE, N. Y., TUESDAY, JULY 8, 1936

FINAL EDITION—FIVE CENTS

PHONE RATES WILL GO UP THURSDAY

ALBANY, July 8 (AP)—The Public Service Commission today authorized the New York Telephone Co. to increase its rates by \$15,745,000 a year.

A company spokesman said the higher rates will go into effect Thursday.

On that day, the company will begin charging 15 cents a month more for party line home telephones and 10 cents more for single line home telephones. It will also charge 15 cents more for private home telephones and 10 cents more for business telephones.

There will be no increase in the charges for pay telephones. About four and one-half million subscribers are affected by the increase.

In surrounding the decision, the commission said that the New York Telephone Co. had "reasonably proved" its need for a rate increase to meet the cost of recent employee pay hikes and other increases in operating expenses.

That was the sole basis for the commission's ruling.

ALBANY, July 8 (AP)—The New York Telephone Co. in 1935 proposed increasing its rates by \$15,745,000 a year, based on replacement costs of company property. It would involve monthly rate increases of 15 cents for most home telephones and 10 cents for most business telephones.

The PSC turned down that proposal in 1935, but the Court of Appeals ordered the commission to reconsider the case and the company has been preparing ever since for a re-hearing.

The increase granted today was the third sought by the company in the last three years.

Last year, while the case was pending in the court, the company applied for a 36-cent "stop-gap" rate boost. The commission granted eight million that last December and held that New York Telephone could not raise its rates until the case was decided.

Wage increases in the company's stores of cost.

The company applied for a re-opening in May.

At public hearings last month, company officials testified the additional revenue was needed to cover wage increases totaling roughly more than 17 million dollars and a \$2,000,000 increase in depreciation rates ordered by the National Communications Commission. The company estimated the amount of new revenues needed to offset these expenses in late-1935 would be \$15,745,000.

In New York City, Keith S. McLaughlin, president of New York Telephone, said the company was pleased that the PSC is allowing it to put into effect a substantial rate increase.

"With this increase our rates, which have gone up less than 20 per cent over the past year, will be the lowest total rates of any state in the union."

Hunted 12 Days

Triple Slayer Trapped And Shot Out of Tree

WARREN, Ohio, July 8 (AP)—A triple slayer "hunted" for 12 days was trapped today in a tree and shot out of it by a posse of law enforcement officers. The slayer, a man named William, was wanted for the slaying of three women, which took place in a few hours after he was shot out of a tree by a state highway patrolman.

U.S. Officials to Try To Revive Steel Talks

FEDERAL GOVERNMENT, July 8 (AP)—U.S. officials today announced they would attempt to revive talks with the steel industry to settle a dispute over a 10-cent increase in the price of steel.

The government's action indicated that it is not ready to concede to the industry's demand for a 10-cent increase in the price of steel.

U.S. Denies Revolt Role

Russian Charges Wholly False; Reprisal Blasted

WASHINGTON, July 8 (AP)—The State Department today denounced as "wholly false" Russian charges that the United States financed and instigated the rebellion of Polish workers at Poznan.

A department statement said "the demonstrations in fact seem to have been provoked by a surge of patriotic sentiment on the part of an oppressed and enslaved people."

The Polish Communist authorities, it said, are now arresting hundreds of Polish citizens in reprisal and threatening "further reprisals."

The State Department issued its statement after receiving a letter from the Communist party in Moscow.

This position sought to answer complaints by foreign Communist leaders that the U.S. had been trying to "incite" the Polish workers to revolt.

The statement also said "it is clear... that the Polish Communist authorities are now arresting hundreds of Polish citizens in reprisal and threatening 'further reprisals.'"
